FCC MAIL ROOM

MM-9839

PETITION FOR RULEMAKING

The following technical exhibit, and petition for Rulemaking, has been prepared for, and on behalf of, Clyde and Connie Lee Scott, D.B.A. EME Communications, 293 JC Saunders Road, Moultrie, Georgia 31768. The purpose is to request the assignment of channel 221A to Eastman, Georgia as that cities third aural and second FM service.

Eastman is located in Dodge County Georgia. Eastman is listed with the United States Census Department and has a population of 5,153 persons. The population of Dodge County Georgia is 17,607 persons. The total population within the proposed 60 dBu contour is 35,158. This study clearly shows that the public interest would clearly be served by adding an additional service to 35,158 persons.

Exhibit-1 is a spacing study that clearly shows that this channel can be allotted to Eastman without any additional interference to existing or proposed facilities and is in full compliance with CFR section 73.202 of the Commissions rules.

Exhibit-2 is a Digital-Line-Graph plot of the proposed 70 and 60 dBu Contours. This exhibit clearly shows that the proposed 70 dBu (3.16 mV/m) contour will completely encompass the city of Eastman, Georgia.

It is concluded that channel 221A can be assigned to Eastman, Georgia in accordance with CFR section 73.207 of the Commissions rules, without any deleting or substitution within the present table of allotments, and therefore should be granted.

Once channel 221A is assigned to Eastman, Clyde and Connie Lee Scott, D.B.A. EME Communications, will file an application with the FCC, and once granted, will build and operate this facility within, and for, the people of Eastman, Dodge County, Georgia

Respectfully:

Clyde Scott, Jr.
